Subject: CGC and Regrettable Resignation

Hello All,

It is truly with heavy heart and deep regret that I have to officially resign from the Clean & Green Commission. My mom has been in the hospital again with a serious Sepsis infection. When she does come home (we are praying) she is going to need almost full time care for which I will be responsible for the majority. Unfortunately it just won't be fair for me to continue with CGC as I now cannot even make it to the upcoming Agenda Meeting and Saturday Citywide Clean Up event at the end of this week.

Being a part of CGC and KHCG has absolutely been one of the more rewarding endeavors of my life. I am going to miss it greatly and all the amazing people I've come to know and had the privilege to work alongside for the wonderful City of Hayward. I will be hoping this isn't the last opportunity I will have in life to serve this community.

Thank you for all your incredible support both professionally, and at times personally, over the years!

With Appreciation and Gratitude,

Melissa Milleman
