<p>The Public Comment section provides an opportunity to address the City Council on items not listed on the agenda or Information Items. The Council welcomes your comments and requests that speakers present their remarks in a respectful manner, within established time limits, and focus on issues which directly affect the City or are within the jurisdiction of the City. As the Council is prohibited by State law from discussing items not listed on the agenda, your item will be taken under consideration and may be referred to staff.</p>	<p>HAYWARD CONCERNED CITIZENS HCC</p>	<p>We OPPOSE the 7 demands to defund police promoted by Hayward Community Coalition in its petition. Our opposing petition (http://chn.g.it/LkQYZh2Kk9) of 739 signatures more than doubled that of HayCoCoa's in 8 weeks. Our data, along with that of the city's recent public safety survey, affirms that the greater majority of residents view HPD as a positive and vital community service which needs to remain intact. City Council is responsible to ensure our funds A,C,D,T are allocated appropriately.</p>	<p>Oppose</p>

ITEM #5 WS 20-044

**Update on Public Safety
Community Engagement Project**

(Report from City Manager McAdoo)

SUPPLEMENTAL MEMO

DATE: October 27, 2020
TO: Mayor and City Council
FROM: City Manager
SUBJECT Update on Public Safety Community Engagement Project

RECOMMENDATION

That Council accepts the amendment to agenda item #5, WS 20-044, regarding the Update of the Public Safety Community Engagement Project.

DISCUSSION

Please find attached the full survey results with responses to open-ended questions, cross-tabulations, and response rankings. These documents provide additional data and insight into the results of the community survey conducted by FM3 and Evitarus. Staff is continuing to review and analyze these survey results and will use these insights to identify subject areas and communities for additional conversations and community outreach.

Table 31: Q8e. I am going to read you a list of potential reforms to the Hayward Police Department that have been proposed by a group of community members. After you hear each one, please tell me if you would support or oppose that potential policy. : Establishing a city-wide, participatory committee for all residents, regardless of citizenship status, that will dictate how to reallocate another 10 percent of the police budget to non-police, community-based services

Table 32: Q9. Some people have proposed that the City explore whether 311 can be used as an urgency hotline to address public safety issues that are unrelated to law enforcement. This would include things like non-violent crisis intervention, mental health first response, traffic safety issues, and trauma-informed intervention for domestic violence victims. Would you support or oppose such a proposal?

ITEM #5 WS 20-044

**Update on Public Safety
Community Engagement Project**

(Report from City Manager McAdoo)

Subject: Agenda Item 5: Update on Public Safety Community Engagement Project

To the Mayor and Hayward City Councilmembers:

In light of the city's official survey results, we ask that the City Council **direct staff to begin implementing ideas that have a majority support**. In particular,

1. **reducing the police budget (55% support);**
2. **reducing the police budget (55% support);**
3. **reallocating the funds towards other city services (55% support);**
4. **creating a participatory budgeting committee to dictate how those funds will be reallocated (60% support);**
and
5. **establishing and promoting a 3-1-1 urgency hotline for service calls that do not require a police response (82% support).**

Your action here is urgent. Every day delayed endangers more members of our community.

Additionally, HayCoCoa requests an audit of how the approximately \$15 million raised annually through Measure C is distributed among city services. During public hearings, several council members have expressed hesitation around reallocating the police budget, equivocating public support for Measure C with public support for police funds. To be clear, Measure C provides funding for a variety of critical services and was never intended to exclusively fund HPD. The information from such an audit will help us clarify any confusion caused by those misleading statements.

We would like to acknowledge the City Staff for taking seriously our community's safety and our organization's demands. We were thoroughly impressed by the care, timeliness, and professionalism by which they carried out these sensitive conversations with residents. City Staff has put in tremendous work over the last several weeks. The ball is now in City Council's court, and we hope you will respond accordingly.

For Hayward,

The Hayward Community Coalition

To Hayward City Council/Mayor:

I admit that I was reluctant to fully support the survey/community conversations piece on public safety. It seemed to me that the huge outpouring of support at meetings and in the streets for change was conversation enough and that the process was done to deliberately delay action until after the election. I also feared that the discussion would be brigaded by more affluent white residents, who directly benefit from the status quo.

Having read the staff report and briefly reviewed the survey and community conversation quotes, my fears have subsided somewhat as I believe it clearly shows that Hayward is ready for action and that problems are evident to the community. There were also many new stories from people we have not heard from, leading me to believe we have only scratched the surface of the trauma and inequity in policing within Hayward. With that, I want to thank the council for taking the voices of Hayward residents seriously. The question is, at this point:

Is the council ready to act? Give residents what they asked for!

Specifically, Hayward residents were strongly in favor of the following:

- The use of 3-1-1 for dispatching non-officers to calls that do not require an officer
- The establishment of a resident participatory committee to reallocate funds from the police toward community-based services.
- Launch an investigation into equity issues relating to over-policing low-income neighborhoods. Get the data from the police regarding areas targeted disproportionately.

I would also point out that in the survey, answers such as "somewhat positive" interactions with the police were grouped together as "overall positive" which I believe is misleading. A somewhat positive experience with the police means that there are issues that need addressed.

Since this is part of a work session, I am asking council to instruct staff tonight, to begin the task of implementing these changes so that they can be taken as an action item at the next meeting.

Thank you,
Jesse Gunn

CAUTION:This is an external email. Do not click on links or open attachments unless you know the content is safe.

Hello City Council,

Hope you are all well. I am writing today with comments regarding Item 5, WS 20-44, Update on Public Safety Community Engagement Project. I participated in one of the community discussions via Zoom. And, after reading through all the attachments for this item, there were a few key items that I did not see and am therefore calling them out here.

1. We have a number of undocumented people in the City of Hayward. What I learned in my Zoom call was, most people who are undocumented, as well as housemates/family members of undocumented people, and even neighbors of undocumented people NEVER consider calling the police or reaching out to the City for services because of fear of putting the undocumented people at risk. I don't know how big this population is, but when I consider the housemates, family members and neighbors who are not reaching out for help from police or the City in order to protect someone that is undocumented, that number likely gets pretty big. I call this out as this is likely a population that needs its own plan to build trust.
2. While I have had both good and not so good experiences with HPD, I have never feared for my safety when engaging with the police nor have I ever feared retaliation when I've complained about service/lack of service of HPD. Others on the call did not feel the same. As we work through changes, my hope is that the majority of the people in Hayward will have experiences like I've had with HPD and that people will feel comfortable saying something when service has not been up to par (Note, my house was burglarized 6 times between 2008 and 2013. So, I've had a few reasons to call on the police or provide feedback when HPD took several hours to show up. And then of course, the issues with squatters in the vacant homes of Parcel 5).
3. As we look at making changes to HPD, please keep in mind our proximity to Oakland (as well as proximity to SF and San Jose). While we are a suburb, we are within driving distance of higher crime areas. And, it's very easy, and fairly common, for people to drive into Hayward, commit a crime, and drive out. Also, as a good neighbor, it's important that our police force be prepared and equipped to assist nearby cities when necessary. My point being that while we are looking at better ways to do things, don't lose sight of the realities of the need for policing in the area where we live, Hayward and the surrounding area.
