

# Education City Focus Projects

**We strive to build a city where all residents have access to quality educational opportunities and cradle-to-career support so they can achieve their life goals.**

The City is committed to working alongside our educational [and community](#) partners to support the academic success and future employment of Hayward's students. The City does this by actively participating in collaborations like the Hayward Promise Neighborhoods, growing the economy, ~~creating-facilitating~~ pipelines for [both private and public sector careers](#), ~~providing-partnering to provide~~ education and employment services, and communicating about educational opportunities and successes.

**Throughout this plan, we have identified projects with this icon that have an 'Education City' focus or services/projects that we are reviewing through an 'Education City' lens.**

**Questions we ask when we apply an 'Education City' lens to a service or project:**

- Have we communicated with our educational [and community](#) partners to align service offerings and create a more seamless service experience for Hayward families?
- ~~Will~~ How will this service, project, or policy ~~generate jobs~~ [create support or expand educational and/or economic opportunities for people in Hayward](#)? If so, are there ways we can ~~develop-facilitate and develop~~ [employment pipelines-with Hayward community and educational partners](#) for Hayward youth and residents to access those jobs?
- ~~How~~ are we communicating about education and economic opportunities [both in and around Hayward](#) to Hayward families? What barriers are there for people to access [this](#) information?
- Transportation specific: Does this project make it easier for families and students to get to their campuses and other educational resources?
