Introduction

The Master Fee Schedule Resolution reports fees for services that are provided to our citizens. Fees that do not recover the full cost of providing the service result in a subsidy which shifts funds away from the critical, high priority needs of job creation, public safety initiatives, utility services, and neighborhood programs.

Before a fee increase was considered the Department responsible for the service demonstrated that the services are being provided as efficiently and effectively as possible. There are a minimal number of fees that were considered for an increase in this year's amendment. For these fees, each respective department demonstrated that services are provided in a best practices manner, and that all reasonable opportunities for savings have been exhausted. As a result of this critical analysis, only fees for new programs or services have been added. Additionally, other fees have been lowered, deleted, or to clarify actual fees charged for services.

Proposition 26 Review and Compliance

In November 2010, California voters approved Proposition 26, which amended Article's XIII A and XIII C of the state constitution regarding the adoption of fees and taxes. Proposition 26 seeks to assure that taxes, which must be approved by the voters, are not disguised as fees, which can be approved by legislative bodies, such as a city council. The proposed Master Fee Schedule (MFS) has been reviewed for compliance with Proposition 26, and in the City Attorney's opinion, the MFS is compliant.

1. SANITARY SEWER SERVICE CHARGES AND FEES

- a. Sewer System Connection Charge (Reference Hayward Municipal Code, Chapter 11, Article 3, Section 11-3.255)
- | | |
|--|------------|
| (1) Single family, duplex, triplex, and fourplex residential units, townhouses, and planned developments | \$7,700.00 |
| (2) High density residential and mobile homes, each residential unit | \$6,853.00 |
| (3) Commercial, industrial, institutional and all other connections: | |
| Per gallon of daily capacity required to serve the user | \$21.51 |
| Per pound per year of biochemical oxygen demand (BOD). | \$8.53 |
| Per pound per year of suspended solids (SS). | \$9.17 |
| Minimum charge | \$7,700.00 |

For the purposes of calculating non-residential sewer connection fees, carbonaceous biochemical oxygen demand (CBOD) and suspended solids (SS) will be reduced by 70% of the estimated values in the actual discharge, but not lower than the CBOD and SS for domestic wastewater, that is, 307 milligrams per liter and 258 milligrams per liter respectively. The property will be entitled to discharge CBOD and SS concentrations commensurate with the estimated actual concentrations. The volume component will not be reduced and will be calculated at 100% of the estimated discharge. The CBOD and SS reduction is applicable only to estimated daily discharge of 50,000 gallons or less. Discharge in excess of 50,000 gallons per day from a facility will be subject to a sewer connection fee based on full CBOD and SS concentrations. This provision will be in effect only from October 1, 2015 through September 30, 2017.

- b. Interest Rates on Sewer Connection Fee Payment Agreements (Reference Hayward Municipal Code, Chapter 11, Article 3, Section 11-3.255)
