The property will be entitled to discharge CBOD and SS commensurate with the actual estimated concentrations. The volume component will not be reduced and will be charged at 100% of the estimated actual daily discharge. The CBOD and SS reduction is applicable only to an estimated daily discharge of 50,000 gallons or less. Discharge in excess of 50,000 gallons per day from a facility will be subject to a sewer connection fee based on full CBOD and SS concentrations. This provision will be in effect through September 30, 2019.
