Subject: Hayward Youth Commission

Hey Ivan,

I just wanted to talk to you real quick about the HYC. I've recently got accepted into EMT school, and the schedule demands are pretty insane. Things come up out of nowhere and block my ability to do other things. As much as I hate to say this, I'm probably going to have to back out of the youth commission while I'm in school. Getting put in a position where I have to choose either public service or my career ambitions suck, but for now I have to choose my career ambitions to support my parents, who are growing more and more tired and sick. I'm sorry to bring this up this late, and if there's anyone else that you need me to contact about this please let me know.

Thank you,

Yahya Elshawarbi
