stated that the project would also have a landscape strip and sidewalk; two of the homes would have two guest parking spaces, and the other two homes would have three-car garages and the space in front of the garages for parking. Mr. Willis asked if an overflow of cars could park on the private street, or if they would have to park on Muir. Mr. Genidy responded that he did not think the CC&Rs would allow parking on the private street, so overflow parking would need to be accommodated in the guest parking spaces and driveways.

Commissioner Bonilla Jr. asked if there was any affordable housing requirement for this project. Associate Planner Lee responded that the project was not subject to the previous affordable housing ordinance, and the project was deemed complete and grandfathered in prior to the recent affordable housing ordinance update.

There being no public comments, Chair Goldstein opened and closed the public hearing at 7:16 p.m.

Commissioner Willis Jr. made a motion to approve the staff recommendation, subject to the Conditions of Approval. Commissioner Schott seconded the motion. The motion passed with the following vote:
