Reflection on Strategic Initiative Process

Prompt: *Did the Strategic Initiative Process meet your expectations? What has been working and what has been challenging with respect to the Strategic Initiatives and other special projects?*

Plus (what went well):	Delta (what could be improved):
<p>Council:</p> <ul style="list-style-type: none"> • Internal collaboration/coordination • Clear and achievable tasks & specific actions with good follow-through • Good job implementing complete streets • Increasing in-lieu housing fees • Infrastructure committee • Small business Loans • Leadership development within staff 	<p>Council:</p> <ul style="list-style-type: none"> • Not enough money, not fast enough • How do we measure completion? • Lack of consistency about complete communities • Affordable housing should have been a bigger focus • Need to refine complete communities - what do we really mean by this? • Tennyson - How do we create a more unified vision; how do we make these kinds of projects part of city's culture (not so one-off)
<p>Staff:</p> <ul style="list-style-type: none"> • Interdepartmental collaboration • Small business Loans • Tennyson Corridor • Complete streets • Having opportunities to report progress to council 	<p>Staff:</p> <ul style="list-style-type: none"> • Complete streets and communities could have been incorporated into all the work • Use Access Hayward for some of the referrals that come up in the community • Lack of clear direction and oversight/leadership • Strategic priorities shifted focus away from other work • Redundant/duplicity • Not enough staff resources

Reflection on Connecting Council Priorities to Staff Workloads

What are your initial thoughts on how to better connect Council priorities with employee workload?

- Narrow focus to 3 - 5 years
- Define and organize priorities (+1)
- Safe, clean, green and thriving = value system (+1)
- Strategic initiatives -> shorter timeline
- How do safe/clean/green/thriving and strategic initiatives relate?
- Don't separate daily work from strategy
- Simplify
- Internal goals / external goals
- Educate staff on complete streets
- "Slow our Roll"
- Rethink neighborhood partnership meeting
- Employees - what is missing? (+1)

- Address homelessness (AM)
- Neighborhood speeding (AM)
- Literless
- Urban forest
- Shoreline planning (AM)
- Building electrification (Eliminate natural gas in new developments) (AM)

Bike Rack (general):

- Want time to go into the details of how we go about these priorities
- Let's do a staff/council work session on things we want to stop doing

Community Engagement Discussion

Prompt: *Should the community be engaged in the development of Strategic Plan for the City of Hayward?*

- no
- yes, at a high level
- vet draft with community; keep it focused, not a huge and involved process
- hold community partnership meetings and/or survey to get input on draft document (or just high level buckets) - we are an elected body and the more we get community input the more credibility we have
- am open to community input, but am concerned this would be
- currently approaching 65,000 emails in Haystack (email list?) - share back what we heard from survey, here is what council and staff think, what do you think? keep it short. Then do 4 community meetings (1. at library, 1. at cabot, 1. at Jimenez community center, and 1 at elementary school to reach all main neighborhoods. But really don't want to see a taskforce and don't want to delay the process further. keep the survey short (only a handful of questions), not 20 questions.
- we did a satisfaction survey, we know how community members feel, we tend to delay things, so I feel most comfortable sharing what we came up with and then asking

¹ Like a metaphorical "Parking Lot" - A place to put topics to take up again at a later time.

community how they would rank it. Make it quick and simple, and within 30 days of when we figure out our plan.

- There should be some opportunity for feedback (when we have draft document we could get some input, invite comments). We represent the community and this should be based on what we've heard from the public and satisfaction survey. Let's do a little more than a typical agenda item. Maybe a community work session.
- One of our goals was to hold a council meeting outside of Council chambers, which we did last September, and it was one of our best attended
- SUMMARY: some limited community engagement; not huge in scope.

Next steps:

- Finalize scope and timeline and bring it back to Council
- Timeline should be 6 - 9 months to inform budget for the coming year

Reflection on Today's Retreat (Council)

- Consider what is viable, desirable and attainable
- Fiscal viability supports everything else
- Safe, clean, green and thriving are values (+1)
- Clean should be changed to "attractive" (+1)
- We are generally in agreement (reaffirmed by this process) / Surprised by how much alignment there is (+1)
- We differ on HOW to achieve our shared vision
- Create diverse opportunities for kids in our City / Kids could be a top value
- Surprised at the disconnect of staff and council priorities
- Super valuable to hear from staff

<p>Plus:</p> <ul style="list-style-type: none">• Survey questions were good and it was good to think about those things before today.• Appreciate having all the department heads here / Loved having the executive team present - want more opportunities to work with them (+ 2)	<p>Delta:</p> <ul style="list-style-type: none">• Survey was difficult to use (should have been released in a different way). Took way longer than 20 minutes.• Spent an hour on the survey. Wanted a way to print the survey responses.
--	--

<ul style="list-style-type: none"> • BBQ was good (+ 1) • Thank you to staff for being here! • Appreciated the planning & printouts of the data • Made a lot of progress toward getting organized around our big goals 	<ul style="list-style-type: none"> • Want to hear more from department heads (+ 1) • Would have liked to have all of our answers to the survey available on hand • More opportunities for small group discussion (+ 1) • Wanted more time to address how we are going to tackle big goals → more focus on specifics
--	---

Final Comments/Questions (Staff)

- How will staff's ideas be integrated?
- Thank you! This executive team is so collaborative and works together, and council has always been the same way. Have always felt very supported by this council, which is extremely important for Police Dept.
