SEC. 10-1.2720 SPECIAL LOT REQUIREMENTS.

No parcel of land shall hereafter be reduced or divided so as to provide less than the minimum lot size or dimensions required in the district in which such land is situated unless otherwise authorized by provisions of this ordinance and/or the Subdivision Regulations.

a. **Minimum Lot Frontage.**

Except as provided herein, each lot shall have a minimum frontage of 35 feet.

b. **Lot Frontage Exception for Flag Lot(s).**

In the case of a flag lot(s) that has been approved in accordance with the provisions of the Chapter 10, Article 3, of the Hayward Municipal Code (Subdivision Ordinance), minimum frontage requirements may be reduced as follows:

- (1) Frontage for one lot shall be 22 feet, with access via a 16-foot-wide strip of land that provides for a 12-foot-wide paved travelway;
- (2) Frontage for two or more lots shall be 28 feet, with access via a 24-foot-wide strip of land that provides for an 18-foot-wide paved travelway.
- (3) As determined by the Planning Director or other approval authority, where feasible, adjoining flag lots may share a common access so long as the above standards are met.
- (4) The use of a flag lot(s) should generally be avoided where other lot designs are possible and they should not be used solely to increase the maximum number of lots. See City Standard Detail #SD-109 and Design Guidelines for additional flag lot criteria.

c. **Lot Size Exception for Certain Substandard Lots.**

Any lot or parcel less than the minimum lot size or dimensions required may nevertheless be used as a building site if the lot or parcel was shown of record by the County Recorder as a lawfully created separate lot or parcel on the date the lot became substandard. In addition, either of the following circumstances must exist:

- (1) The lot or parcel is not less than 80 percent of the size and average lot width requirements of the zoning district; or
- (2) The lot or parcel is less than 80 percent of the size and average lot width requirements of the zoning district and there was no land abutting the lot or parcel under the same ownership on the date the lot became substandard.

Except as herein provided, every required yard shall be open and unobstructed and shall not be reduced or diminished in area so as to be smaller than prescribed by this ordinance. All uses shall be conducted indoors unless a use permit for outside storage has been approved.

a. **Yards Measured from Official Plan Line.**

Wherever an official plan line has been established for any street or future right-of-way, required yards shall be measured from such line.

b. **Yard Calculations.**

Open area required for one building, lot, or use shall not be calculated as required open area or yard for any other building, lot or use. Except where part of an approved development plan, or authorized by other regulation herein or the Planning Director, no structure shall be located in a required yard area.

c. **Yards on Dual Frontage Lots.**

Where the front and rear of a lot both have street frontage on approximately parallel streets, no above-ground structure shall be located closer to either street than the distance constituting the required front yard, except on those parcels where street access is restricted by regulations of a public authority, in which case building additions (not accessory structures) may be located within the yard where street access is restricted subject to requirements for rear yards.

d. **Yard Exceptions - Garages on Slopes.**

- (1) Wherever the difference in elevation exceeds 5 feet between the front yard setback line and:
 - (a) the elevation of the existing or planned street grade, or

(b) the elevation at the rear line of a front yard,

Or:

- (2) Wherever the difference in elevation exceeds 2½ feet between the side street property line and the rear line of a side street yard,

Then, the horizontal distance from any garage or parking space in no case shall be less than 5 feet from the property line or an official plan line. This exception shall not apply on those streets where no on-street parking is permitted along the lot frontage unless a minimum of 2 additional spaces are provided on site in conformance with all required yard and design requirements.

e. **Yard Exceptions - Overhangs, Stairways, Chimneys, Open Porches and Architectural Features.**

Architectural features such as cornices, eaves, open porches, bay windows, and canopies may extend 2 feet into any required side yard and may extend 5 feet into any required front or rear yard. f. **Yard Exceptions - Vision Clearance.**

On a lot situated at the intersection of two or more streets, nothing shall be erected, placed, planted, or allowed to grow in such a manner as to be in violation of Ordinance No. 100 C.S., as amended, Hayward Traffic Code, Sections 9.01 through 9.05, relating to Obstructions to Visibility at Intersections Prohibited, as the same are now in effect or which may hereafter be amended or replaced.

For the RS District, an 8-foot-high fence or wall may be permitted adjacent to any non-residential zoning District.
- (b) Fences, hedges, and walls on through lots shall be limited to a height of 4 feet in any portion of the front yards unless determined by the Planning Director that up to a height of 6 feet across a front property line acting as a rear property line would not compromise the safety of motorists and pedestrians nor the aesthetic value of the streetscape.
- (c) Fences or walls required to surround and enclose public utility installations are not limited as to height in any district.
- (d) In all multi-family, commercial, or central city districts, no fence or wall shall be located in any required front or side street yard except as part of an approved development plan or if approved by the Planning Director.

 - (b) Accessory buildings or carports exceeding 120 square feet in area or open parking spaces shall be located no closer than 5 feet from the side and rear property lines.
 - (c) Accessory building(s), garage(s), and one-story home additions may not cumulatively occupy more than 40 percent lot coverage of a required rear yard.
- (2) For legal, conforming residences in other districts, setbacks for accessory buildings when located between the rear of the main building and the rear lot line may be placed 5 feet from the side and rear property lines or within the building envelope; and when located between primary structures and the right-of-way, all front and side yard setbacks shall be met.

l. **Special Yards - One-Story Additions, Single-Family Dwellings.**

Reduction of the rear yard to 10 feet for one-story additions to single-family dwellings is permitted provided the required rear yard is not reduced by more than 20 percent and provided the cumulative coverage of the required rear yard does not exceed 40 percent.

m. **Special Yards - Flag Poles, Towers, Antennas, Satellite Earth Stations.**

- (2) For lots 70 or more feet in width, the Planning Director may approve a greater driveway width if the Planning Director determines the design of the driveway is aesthetically pleasing and compatible with the lot terrain and adjacent development, and will not create a pedestrian or vehicular hazard. For single-family homes, the total paved surface for vehicle parking, storage, and access in required front yard shall not exceed 50 percent.
- (3) For single-family homes, a curved driveway (“Hollywood driveway”) is permitted on lots that are 100 feet or more in width, and where item #(2) above is met.

(5) Maximum Height of Structures.

No building or structure used for the housing of animals shall be erected or maintained on any lot to a height greater than that permitted for accessory structures in the respective zoning district. A greater height may be permitted based on consideration of special characteristics of the lot, including, but not limited to, topography, lot size, and building placement, and subject to approval of the Planning Director.

(6) Minimum Setback Requirements.

All barns, stables, and other structures used for the housing of animals, except for household pets, on any lot shall be located not less than 20 feet from any property line and not less than 40 feet from any dwelling on the same or adjoining lot. (8) Maintenance of Livestock and Other Animals.

All livestock and other animals shall be kept or maintained so as to minimize and prevent production of flies, excessive odor, dust, noise, or other conditions detrimental

to the community health and welfare, by applying the following minimum requirements:

 - (d) Grain feeds shall be stored in rodent-proof containers or buildings, i.e., metal cans or rodent-proof feed cribs; all other feed must be stored in vermin-proof containers.
 - (e) The entire area set aside for the animals shall be cleared of all rubbish and debris.
- (9) Livestock as a Legal, Nonconforming Use.
Livestock existing as a legal, nonconforming use may continue indefinitely as long as (a) the livestock have existed continuously in that six months have not passed when there were no livestock on the site, (2) the maximum number of livestock established as a nonconforming use is not increased, and (3) as long as there is no intensification of livestock, e.g., legal, nonconforming medium livestock may not be intensified by replacing them with large livestock. The burden of proof for establishing the legal, nonconforming status of livestock rests with the property owner subject to the endorsement of the Planning Director.
