Dear Council Public Safety Committee,

On behalf of our coalition, would like to commend everyone on the great job you are doing in keeping the residents safe.

We would like to provide input on the potential new public safety department. We would like to see an aesthetically beautiful design.

Some examples:

This is the Beverly Hills complex

Or perhaps something in homage to the Old City Hall architecture.

Or in homage to the Old Hayward High School.

We need to preserve beautiful architecture & continue building in that manner. Those buildings serve as anchors for the city.

Best,
John
BC4AD Coalition
