City Clerk: Please forward my comments regarding the Green Shutter to the Planning Commission. Please let me know when this is done, since my last email to you went to your Spam folder and was retrieved late. Thank you.

Dear Commissioners,

Please make conditions of development for this project that the developer:

1. re-create the historical stained glass windows (see picture below; I do not care if it is actual stained glass or just something that has its appearance),
2. retain the interior 2nd floor courtyard (picture below), and
3. re-create and install the exterior door on Main Street next to the Book Shop.

These are important historical features of this building that should not be lost.

Thank you,

Julie Machado, J.D., M.F.T
