

**PLANNING COMMISSION MEETING  
THURSDAY, MAY 13, 2021**

**DOCUMENTS RECEIVED AFTER  
PUBLISHED AGENDA**

# **ITEM #1 PH 21-040**

**Proposed Development of Two New Drive-Through Restaurants and a Significant Exterior and Interior Remodel of an Existing 94,500-Square-Foot Commercial Building Requiring Approval of a Conditional Use Permit, Site Plan Review, and Various Warrants and Exceptions from the South Hayward BART Form-Based Code. Application No. 202002474.**

**Located at 26231 Mission Boulevard**

**Staff Response to Commissioners Questions**

**&**

**Public Comments**

**May 13, 2021 – Planning Commission Questions**

ITEM #	QUESTION	STAFF RESPONSE
#1	<p>The Staff Report does not include any fiscal or economic impact data for the Project.</p> <p>Do we know how much additional tax revenue would approval of this application generate?</p> <p>Estimated Sales tax?</p> <p>Estimates Property taxes?</p> <p>Do we expect an increased demand on city services?</p>	<p>Sales Tax is an excise tax imposed on retailers for the privilege of selling or leasing tangible personal property. The Use Tax is an excise tax imposed for the storage, use, or other consumption of tangible personal property purchased from any retailer. The proceeds of sales and use taxes imposed within the boundaries of Hayward are collected and distributed by the State to various agencies, with the City of Hayward receiving the equivalent of 1 percent of the amount collected.</p> <p>Currently, the project site is vacant and has not generated any sales tax revenue since the Kmart store closed in January 2020. Due to the proprietary nature of the data, sales tax revenue from single users are not made public. However, according to the City’s financial consultants, the three new proposed tenants combined are expected to generate between \$100,000 to \$185,000 annually in new sales tax revenue to the City. Most of this revenue would be created by the proposed drive-through restaurants. Grocery stores typically do not generate large amounts of sales tax since grocery items are exempt. However, “hot prepared food” from a grocery store is subject sales tax. In fact, either of the restaurants alone are projected to generate twice as much sales tax revenue than the grocery store. This total estimate does not account for the seven other tenant spaces that are proposed as users have not been identified.</p> <p>Property tax revenues are the City’s largest General Fund revenue source, comprising approximately one-third of General Fund revenues. The City’s property tax is collected by Alameda County, and the City</p>

		<p>currently receives approximately 16 percent of the 1 percent countywide real property tax levied.</p> <p>In the 2020-2021 tax year, the project site was assessed \$243,794.68 in property taxes by the Alameda County Assessor’s Office. This yielded approximately \$39,000 in property tax revenue to the City. In the absence of an estimate of the value of building permits, which would likely trigger reassessment of the property tax basis, staff cannot yet forecast the increase in property tax revenue to the City resulting from the project. It is reasonable to expect the value and subsequent revenue to the City will increase as improvement to the land and buildings are completed.</p> <p>City staff is not anticipating an increased demand for city services beyond the typical utility infrastructure and connections. The project site was 100% commercial retail when the site was formerly owned and operated by Kmart, and with the proposed project the site will remain as 100% commercial through the means of an adaptive reuse of the existing structure. There will not be a residential component associated with this project that may cause an increased demand for public safety and utilities.</p>
#1	Will the new traffic signal be synchronized with the signal at Mission/Harder?	Yes. Per Conditions of Approval #72 and 73, the new traffic signal at the intersection of Harder/Dollar will be integrated into the SCATS traffic control system to ensure all intersections are coordinated between Jane Avenue and Mission Boulevard.
#1	How is this site zoned in the newest FBC? Is it 100% commercial in the new FBC?	The project site is currently zoned Mission Boulevard – Corridor Center (MB-CC) with a COMM 1 overlay which requires ground-floor commercial throughout the site. The current MB-CC zoning does allow for mixed-use residential development; however, ground-floor residential units are not permitted with the COMM 1 overlay.

The campus shuttle bus could make more efficient trips between this new station and campus.

It'll provide easy BART access to the neighborhood along Whitman St.

I really wish we thought of this earlier. Is it too late? Clearly no one had brought up this possibility as none of the comments that I've read include mention of such an idea. If someone had, I'm willing to bet it would have overwhelming support!

Beef takes 28 times more land to produce than pork or chicken, 11 times more water, and produces 5 times more CO2 emissions. [1] As tasty as In-In-Out Burgers may be, their lack of alternatives and long drive-thru lines are not good for the environment.

We have plenty of drive-thru fast-food restaurants already! There's a McDonald's right next door. We need to design for walk-ability, and less for cars.

What we have here is a ONCE IN A LIFETIME opportunity to add a 3rd BART station to Hayward. It's too bad that we're squandering it on a couple of drive-thru fast-food restaurants.

Thank You,  
Carl Gorringer  
Downtown Hayward resident

PS. Please see "Harder" station on the included transit map. :-)

Dear Planning Commissioners

I am writing to ask you to approve the redevelopment at 26231 Mission Boulevard, Assessor Parcel Nos. 452-0020-009-01 and 452-0020-006-10. As a resident of the SoHay community just down the street from the project we desperately need the restaurants and shops that are proposed. Currently we drive 20+ minutes to Fremont or Castro Valley for groceries with nothing close enough to take the local busses despite having a stop right outside our community. This development's location is 1.5 miles from SoHay and would reduce the need for private automobile traffic for essential services.

I wholeheartedly ask you to approve the development as currently proposed.

Sincerely,

XANDR STACK  
SoHay Resident

Hello,

I am emailing to express my support for the remodel of the K-Mart on Mission Blvd. and Harder Rd. and the possible In-N-Out and Raising Cane's. As a graduate of Moreau Catholic High School, I know that those two restaurants (in addition to whatever other stores will occupy the center) will be immensely popular to the students of Moreau, St. Clement, Harder Elementary, CSUEB, and others. I just hope that the planners plan enough space within the center for the drive-thrus of each restaurant so that Mission/Harder is not blocked.

Furthermore, I'd like to also express my support for a Sprouts Farmers Market to anchor the center. As a current Sprouts team member, I love the store and there is such a huge gap in the East Bay between the Oakland and Newark locations. A Hayward location would be perfect for the Hayward community and also neighboring cities who won't have to drive too far to get organic and fresh produce and other groceries.

Thank you for your time,  
Boston Palacios

Dear Planning Commissioners

I am writing to ask you to approve the redevelopment at 26231 Mission Boulevard, Assessor Parcel Nos. 452-0020-009-01 and 452-0020-006-10. As a resident of the SoHay community just down the street from the project I am looking forward to utilizing the restaurants and shops that are proposed. We are desperately in need of a high-end grocery store near our community and this development proposes the appropriate space and parking to attract such a store. Existing drive-through restaurants in Union City are overflowing at all hours and this proposal's drive-throughs will provide relief to the current crowding.

I wholeheartedly ask you to approve the development as currently proposed.

Sincerely,

Alberto Barrera  
SoHay Resident

Hello Mr. Martinez,

Thank you for your email. Please find attached a letter supporting the redevelopment of the former Kmart site to include a conventional grocery store. Please let me know if you have any questions or need additional information.

Regards,

Rita Duncan

President

Hayward/South Alameda County BWOPA Chapter

May 8, 2021

To: Hayward City Council  
From: Hayward/South County BWOPA Chapter  
Re: Retail Shopping Center Development – Old K-Mart Site

The Hayward/South Alameda County Black Women Organized for Political Action (BWOPA) Chapter strongly supports the approval by Hayward City Council of the development of a retail shopping center at Mission Boulevard and Harder Road. Hayward is exponentially developing with multiple housing developments in areas which have insufficient conventional grocery stores and high-end drive through restaurants. The approval of this retail center will begin to address this problem in the City of Hayward.

We acknowledge there are many small specialty grocery stores in Hayward which in our opinion do not address the major shopping needs of the community which a conventional grocery store will be able to help solve.

It is also our understanding that the City has been attempting to address this issue for the past ten years. Hopefully, the Hayward City Council will be able to vote favorable on the development of a retail shopping center on the old K-Mart site.
