OUR MISSION, VISION, AND CORE VALUES

MISSION

To enhance partnerships and trust with our community, reduce crime and improve the quality of life for those we serve.

VISION

To have a highly trained and supported police department that helps build a safe and connected community where people can live, work, and thrive.

CORE VALUES

Our core values define us and provide a framework for how we operate. They say who we are and what we will and will not stand for as a department.

The seven core values of the Hayward Police Department include:

- Accountability
- Employee Wellness
- Humility
- Integrity
- Leadership
- Professionalism
- Trust and Respect

In addition to these seven core values, it is important to recognize that each of these core values are made up of other values and behaviors. For example, we recognize that for an officer to be professional, they must be ethical and honest. Being a team player and communicating effectively are fundamental parts of each of the seven core values.

PREFACE:

The Hayward Police Department (HPD) is committed to maintaining public trust, community partnership, transparency, accountability, best practices, and compliance with the law. As such, the Department has developed and published this Military Equipment Use Report in accordance with Assembly Bill No. 481, Government Code § 7072 and HPD Military Equipment Use Policy. In July 2022, the Hayward City Council approved the HPD's use of the listed equipment. This document reports on information covering the period of July 2022 – March 2023. The following information is included in this report (Government Code § 7072(a)):

1. A summary of how the military equipment was used and the purpose of its use;
2. A summary of any complaints or concerns received concerning the military equipment;
3. The results of any internal audits, any information about violations of the military equipment use policy, and any actions taken in response;
4. The total annual costs for each type of military equipment, including acquisitions, personnel, training, transportation, maintenance, storage, upgrade, and other ongoing costs, and from what source funds will be provided for the military equipment in the calendar year following submission of the annual military equipment report;
5. The quantity possessed for each type of military equipment; and
6. The additional military equipment HPD intends to acquire in the next year, and the quantity sought for each type of military equipment.

EQUIPMENT OVERVIEW:

The term "military equipment," as used in the legislation, does not necessarily indicate equipment used by the military. Items deemed to be "military equipment," include, but are not limited to equipment such as unmanned vehicles, command and control vehicles, armored vehicles, less lethal shotguns, and noise flash diversionary devices. These types of equipment, as well as others considered "military equipment" under AB No. 481, are commonly used, and employed by law enforcement agencies across the country to enhance community members' and officer's safety.

It is the policy of the Hayward Police Department that members of the department comply with the provisions of Government Code § 7071 with respect to qualifying "military equipment." "Military equipment" shall be used by members of the Department who have completed applicable training, including training required by the Commission on Peace Officer Standards and Training (POST).

EQUIPMENT OVERVIEW CONT'D:

"Military equipment," which has been approved for use by the governing body, shall be used in accordance with all other applicable department policies and laws. These policies and laws include, but are not limited to:

- Hayward Police Department Policy 300 (Use of Force)
- Hayward Police Department Policy 302 (Control Devices and Techniques)
- California Assembly Bill No. 481
- California Penal Code Section 13652 (Use of Kinetic Energy Projectiles and Chemical Agents)

The Hayward Police Department acknowledges the historical use of certain police equipment to intimidate and oppress certain communities and groups more than others, including those that are defined by a common race, ethnicity, religion, national origin, income level, sexual orientation, or political perspective. As such, this policy expressly prohibits the use of "military equipment" on individuals or groups solely based on actual or perceived characteristics, such as race, ethnicity, national origin, religion, sex, sexual orientation, gender identity or expression, economic status, age, cultural group, or disability.

BACKGROUND - ASSEMBLY BILL 481:

On September 30, 2021, Governor Newsom signed a series of eight (8) pieces of policing reform legislation aimed at increasing transparency around policing. AB No. 481, authored by Assembly Member David Chiu (D-San Francisco), was one of those pieces of legislation. AB No. 481, which became effective on January 1, 2022, was created to address transparency issues in the funding, acquisition, and use of law enforcement equipment that lawmakers have designated as "military equipment."

AB No. 481, codified in Government Code section(s) 7070 through 7075, requires law enforcement agencies to obtain approval of the applicable governing body (City Council), by adoption of a written Military Equipment Use Policy, via ordinance, at a public hearing, before law enforcement agencies may take certain actions relating to the funding, acquisition, or use of military equipment, as defined by the legislature.

Once approval is granted, AB No. 481 requires law enforcement agencies to submit an annual Military Equipment Use Report to the City Council, summarizing the use of each type of equipment, complaints received, internal audits and information about violations of the Military Equipment Use Policy, the cost of military equipment, and other similar information. This annual Military Use Report must be posted to the law enforcement agency's website and the law enforcement agency must hold at least one community engagement meeting for the general public to discuss the Report. On an annual basis, the City Council must review the Military Use Policy and ordinance as well as the Military Equipment Use Report and vote on whether to renew the ordinance.

PROJECTED ACQUISITIONS FOR FY 2024:

While some purchases and acquisitions can be anticipated, the unanticipated replacement of existing AB No. 481 equipment may be necessary due to damage beyond that of repair. Replacement of these items will be handled on a case-by-case basis dependent on operational and departmental needs. These unexpected needs-based acquisitions will be in accordance with department policy and AB No. 481.

Consumable AB No. 481 military equipment acquisitions in the next 12 months will remain consistent with current department replenishment schedules and policies. Acquisitions and purchasing of these consumables will replenish quantities previously approved by the department.

Categories of consumables are as follows:

- Ammunition- all calibers
- Diversionary Devices
- Chemical Agents
- Specialty Munitions (40mm and Less Lethal Munitions)

Non-consumables are as follows:

Robot:

Two additional robots for SRU and patrol. The robots are smaller and can be thrown into a structure. They are also small enough to attach to an officer for easier deployment. The Robot is made by Recon Robotics and is called "Throwbot 2." The average cost per robot is \$16,000.

The funding for this purchase has been allocated through HPD's Operating budget to replace the Avatar robot SRU reallocated to the Patrol Division. The funding for the purchase of the second Throwbot 2 would also be through HPD's Operating budget as a new item for the Patrol Division.

UAS:

Based on operational needs and functionality, an additional 8 UAS's need to be purchased in FY 2024. Below is a list of the quantity of each UAS needed, including their capabilities.

- DJI Matrice 30T (2): The DJI Matrice 30T (M30T) features an integrated wide, zoom, and infrared cameras with a laser rangefinder sensor, IP55 ingress protection, and -20° C~50° C temperature operation range. 41-minute maximum flight time.
- DJI Mini 3 Pro (2): The DJI Mini 3 Pro weighs less than 249 grams, has tri-directional obstacle sensing, can record up to 4K/60fps video and 4K/30fps HDR video, 34 minutes of maximum flight time and the camera can be rotated 90 degrees, enabling the ability to capture still photos and videos in both landscape and portrait format.

Page 12

PROJECTED ACQUISITIONS FOR FY 2024 CONT'D:

- DJI Mavic 3 (2): The DJI Mavic 3 has a 4/3 CMOS Hasselblad camera, 46 minutes of flight time, Omnidirectional Obstacle Sensing, 15km maximum transmission range, and an advanced return to home feature.
- Brinc Lemur 2 (2): The Brinc Lemur 2 features 2-way communication for de-escalation and communication for all types of incidents, on board Lidar for real time floor plan mapping, live streaming for off-site viewing capabilities, 4K day time, night time thermal sensors for interior deployment, 31minutes of flight time and 10 hour 360 degree position hold, integrated lighting system, internal repeaters for extended range and encryption, turtle mode which allows the Brinc to flip right side up if flipped over, glass breaking attachment for breaching capabilities, and is able to fly in inclement weather.

The total cost for the 8 additional UAS's, including all accessories, batteries, and charging stations is \$75,000.

The funding for this purchase has been allocated through HPD's Operating budget.

Armored Personnel Carrier:

Based on the limitations and age of the Department's current armored rescue vehicle from Armored Solutions, the recommendation is for the Hayward Police Department to purchase a Lenco armored rescue vehicle in FY 2024 to replace the current ARV. The cost of a Lenco ARV will not exceed \$400,000.

Funding for this vehicle has been allocated through the City of Hayward's fleet budget.

Sniper Rifles:

The Department's Special Response Unit's sniper team anticipates the purchase of 5 new Remington 700 rifles. The current rifles are over 30 years old and need to be replaced. The cost of each rifle is approximately \$1,200 plus accessories. The total cost for the purchase of new rifles will not exceed \$10,000.

Funding for this purchase has been allocated through HPD's Operating budget.

Specialty Ammunition:

There is an annual cost for specialty ammunition used by the department. Each year the cost varies depending on training, schools, and academy recruits. The Department's annual budgeted purchase of specialty ammunition is \$50,000.

Funding for this purchase has been allocated through HPD's Operating budget.

PROJECTED ACQUISITIONS FOR FY 2024 CONT'D:

Noise Flash Diversionary Device (NFDD):

The Department plans to purchase a case of 12 NFDD's in FY 2024. The cost for 12 NFDD's is \$1017.12 per case.

Funding for this purchase has been allocated through HPD's Operating budget.

Chemical Agents "Tear Gas":

Based on use during training, the SRU operation on 1/6/23, and the expiration of the CS gas canisters, the Department will need to purchase CS gas in FY 2024 to replenish the inventory. The cost to replace what was utilized and expired is \$6,749.00.

Funding for this purchase has been allocated through HPD's Operating budget.

Specialty Impact Munitions Systems and Ammunition:

The recommendation is for the Department to purchase 6 additional 40mm launchers in FY 2024. Two launchers will be utilized by the District Command Unit and the other 4 launchers will be placed into the Patrol Division's inventory. The cost for this purchase is \$7,110.15.

Funding for this purchase has been allocated through HPD's Operating budget.
