

**DATE:** November 27, 2018

**TO:** Mayor and City Council

**FROM:** Development Services Director

**SUBJECT:** Approval of Final Map Tract 8447 (SoHay), Associated with the Previously Approved Tentative Map for Tract 8428 and Proposed Development of 126 Residential Condominium Units and a Public Trail on a 10.91-acre Site Located at 29629 Dixon Street; William Lyon Homes, Inc. (Applicant/Owner)

## **RECOMMENDATION**

That the City Council adopts the attached resolution (Attachment II) approving Final Map Tract 8447, finding the map in substantial conformance with the approved Vesting Tentative Tract Map 8428 and the Conditions of Approval thereof, and authorizing the City Manager to take other administrative actions and execute a Subdivision Agreement and such other documents as are appropriate to effectuate the required improvements for the SoHay development.

## **SUMMARY**

The Applicant has submitted a Final Map and Improvement Plans that has been reviewed and has been determined to be in substantial compliance with the approved Vesting Tentative Map for Tract 8428 by the City Engineer. City Council's approval of the attached resolution would approve the Final Map and authorize the City Manager to execute a Subdivision Agreement between the City and Applicant for the construction of improvements and other obligations required per conditions of approval of the Vesting Tentative Tract Map.

If the City Council approves the Final Map, the applicant will have the final map recorded, obtain building permits, and commence the construction of improvements shown on the approved Improvement Plans.

## **BACKGROUND**

Per State law, Tentative Tract and Final maps are required for all subdivisions creating five or more parcels. A Tentative Tract Map is required to ensure that any proposed development complies with the Subdivision Map Act, the California Environmental Quality Act, Planned Development guidelines, the City Subdivision Ordinance, Zoning Ordinance, Building Regulations, the Hayward General Plan and Neighborhood Plans, and the site-specific requirements of the Development Services, Public Works, Fire, and Police Departments.

After the Tentative Map and Precise Plan are approved, the Applicant submits the Final Subdivision Map and Improvement Plans for review and approval by the City Engineer (and subsequent recordation of the Final Map after Council review and approval) before proceeding with obtaining building permits.

On May 8, 2018, Council approved the Vesting Tentative Tract Map and other discretionary approvals to subdivide the property and construct 35 townhome style residential condominiums as well as construct 20,000 square feet of commercial space, public park and trail, 198 residential condominium units and 72 apartment units. The Vesting Tentative Map will expire on May 8, 2021.

On March 15, 2018, the applicant submitted Improvement Plans and the Final Maps for Tracts 8428 and 8444 to the City Engineer for review and approval. A grading permit to allow the developer to perform clearing and rough grading of project properties was issued by the City Engineer on August 6, 2018.

Council approved the first phase of the project, Final Maps for Tracts 8428 and 8444, on November 13, 2018.

## **DISCUSSION**

Tract 8447 is located across three (3) parcels totaling 10.91-acres at 29629 Dixon Street. (see Attachment III- Vicinity Map) and will create lots required to construct a public trail and 126 residential condominium units. The approved SoHay development is comprised of five (5) Tracts. Improvement plans and Final Maps for the remaining two (2) Tracts are currently under review by the City Engineer.

SoHay has a condition of approval that requires the mixed-use buildings locating along Mission Blvd to begin vertical construction prior to the issuance of the certificate of occupancy for the first condominium unit and shall be completed prior to issuance of certificate of occupancy for the last condominium unit. The mixed-use buildings are comprised of two (2) 55-foot buildings that will have a combined 20,000 square feet of commercial space and 72 apartment units.

The Applicant submitted building permit applications for the mixed-use buildings on July 30, 2018 and those applications are currently under review by the Building Official.

The Subdivision Improvement Plans and Final Maps (Attachment V) were reviewed by the City Engineer and were found to be in substantial compliance with the Vesting Tentative Map and in conformance with the Subdivision Map Act and Hayward's subdivision regulations. There are no significant changes to the Final Maps as compared to the approved Vesting Tentative Tract Map.

The City Council's approval of the Final Maps shall not become effective until and unless the developer enters into a Subdivision Agreement with the City for the construction of improvements and other obligations required per conditions of approval of the Vesting Tentative Tract Map.

On May 8, 2018, the Hayward City Council adopted a Mitigated Negative Declaration with the approval of Vesting Tentative Map Tract 8428 and additional environmental review is not required for approval of the Final Maps.

## **ECONOMIC AND FISCAL IMPACT**

The approval of these Final Maps is consistent with the approved project and will not have any fiscal or economic impacts other than those identified during the original project approvals.

## **STRATEGIC INITIATIVES**

This agenda item supports the Complete Streets Strategic Initiatives. The purpose of the Complete Streets Initiative is to build streets that are safe, comfortable, and convenient for travel for everyone, regardless of age or ability, including motorists, pedestrians, bicyclists, and public transportation riders. This item supports the following goal and objective:

Goal 2: Provide Complete Streets that balance the diverse needs of users of the public right-of-way.

Objective 1: Increase walking, biking, transit usage, carpooling and other sustainable modes of transportation by designing and retrofitting streets to accommodate all modes.

This agenda item also supports the Complete Communities Strategic Initiative. The purpose of the Complete Communities initiative is to create and support structures, services, and amenities to provide inclusive and equitable access with the goal of becoming a thriving and promising place to live, work and play for all. This item supports the following goal and objectives:

Goal 2: Provide a mix of housing stock for all Hayward residents and community members, including the expansion of affordable housing opportunities and resources.

Objective 2: Facilitate the development of diverse housing types that serves the needs of all populations

Objective 3: Conserve and improve the existing housing stock

## **PUBLIC CONTACT**

A public hearing is not required for the filing and approval of the Final Maps for Tract 8447. Public hearings were already conducted as part of the approval of the Vesting Tentative Map for Tract 8428.

## **NEXT STEPS**

If the City Council approves the Final Map, the applicant will have the final map recorded, obtain construction permits, and commence the construction of improvements shown on the approved Improvement Plans.
