

SUBJECT

General Plan Annual Report

RECOMMENDATION

That the Commission accepts this report and provides feedback as desired.

SUMMARY

In 2014, the City Council adopted a new General Plan for the City. State law requires jurisdictions to provide an annual report to their legislative body and the State on the status of the General Plan and progress in its implementation.

Within the first five years of the General Plan's implementation (2014-2019), nearly two thirds of programs are either complete or in progress. Of the implementation programs identified for this timeframe, 27 percent have not been started for various reasons, including funding availability, resources, and/or shifting priorities. However, 31 percent of the programs slated for initiation in the 2020-2040 timeframe, are already complete or in progress, ahead of schedule.

BACKGROUND

On July 1, 2014, following a twenty-two-month community planning process, the City Council adopted a new General Plan for the City. Included as Part 4 of the new Hayward 2040 General Plan was a series of implementation programs designed to activate the various goals and policies set forth in the document. For each implementation program, a timeframe was established for completion as well as a responsible lead department for carrying out the program. While some programs have identified timeframes, there are others that are indicated to be an ongoing program and others that occur annually. One such implementation program is the General Plan Annual Report, which is the report back to the State and City Council on implementation program progress.

<u>Public Outreach:</u> The development of the General Plan, including the various implementation programs, contained a significant community outreach component. The Hayward e-plan, or web-based General Plan, is linked from the City's website and periodically updated to include implementation program status. In addition, many of the individual implementation programs require community outreach and engagement prior to completion.

<u>City Council Meeting:</u> On May 7, 2019, staff presented the General Plan Annual Report to the City Council. The Council accepted the report and praised City staff for the amount of work that has been completed and/or initiated to date. Some questions and clarifications were asked about specific programs, and staff indicated that they would seek responses from the appropriate responsible departments. For future General Plan Annual Reports, the Council requested that ongoing/annual programs be separated out from the "in progress" category. The Council also indicated that additional direction regarding program prioritization may come as a result of their retreat on May 11, 2019.

DISCUSSION AND STAFF ANALYSIS

The <u>Hayward 2040 General Plan</u>¹ contains a total of 143 implementation programs covering ten elements including Land Use, Mobility, Community Safety, Economic Development, Education and Life Long Learning, Hazards, Natural Resources, Housing, Health and Quality of Life, and Public Facilities and Services. As shown in Table 1, of the 143 implementation programs, 107 were identified for initiation and/or completion in the 2014-2019 timeframe. The remaining thirty-six programs were slated for initiation and/or completion within the 2020-2040 timeframe.

Table 1: Status of General Plan Implementation Programs, March 2019

Timeframe	Complete		In Progress		Not Started		Total
Timeframe	#	%	#	%	#	%	Total
2014 - 2019	11	23%	20	42%	17	35%	48
Ongoing/annual, initiated in 2014 - 2019	-	-	47	80%	12	20%	59
Subtotal 2014 – 2019	11	10%	67	63%	29	27%	107
2020 - 2040	2	6%	5	16%	24	77%	31
Ongoing/annual, initiated in 2020 - 2040	-	-	4	80%	1	20%	5
Subtotal 2020 – 2040	2	6%	9	25%	25	69%	36
Total	13	9%	76	53%	54	38%	143

Within the first five years of the General Plan's implementation, nearly two thirds of programs are either complete or in progress. As shown in Figure 1, of the 107 programs slated for completion or initiation within the 2014-2019 timeframe, 10 percent are complete and 63 percent are in progress. Of the programs identified for this timeframe, 27 percent have not been started for various reasons, including funding availability, resources, and/or shifting priorities. However, of the 36 programs slated for initiation in the 2020-2040 timeframe, 6 percent are already complete and 25 percent are in progress, ahead of schedule. A complete table outlining the current status of all implementation programs is included as Attachment II.

Figure 1: Status of General Plan Implementation Programs

Completed Programs

Eleven implementation programs identified for the 2014-2019 timeframe have been fully completed:

- LU-4, Downtown City Center Specific Plan
- LU-10, Sign Ordinance Update
- LU-11, Industrial Technology and Innovation Corridor Plan
- LU-15, State Historic Building Code
- M-12, Shuttle Service Study
- M-21, Downtown Parking Management Plan
- ED-14, Ombudsperson Service
- NR-4, Water Conservation Standards
- EDL-7, Library Facility Revenue Measure
- PFS-5, Construction and Demolition Debris Recycling Program
- PFS-6, Rainwater Harvesting and Greywater Systems

Programs In-Progress

Sixty-seven programs slated for 2014-2019 are currently in progress. Some key programs currently underway include revised park dedication requirements and in-lieu fees; an update to the Bicycle Master Plan, which will also address pedestrian mobility; undergoing an accreditation process to evaluate and enhance fire and emergency medical services; construction of the new library facility; and various programs that promote and incentivize energy efficiency and water conservation.

Programs Not Yet Started

Some programs that the General Plan identifies for the 2014-2019 timeframe have not yet been initiated. This includes comprehensive updates to the Zoning Ordinance, Subdivision Ordinance, Design Guidelines, and Off-Street Parking Regulations, which have been delayed due to limited staff and fiscal resources, along with competing City priorities. A series of library programs that have not yet started will be undertaken upon completion of the Library Strategic Plan, which is anticipated to be initiated in 2020. Some programs, such as development of multimodal (LOS) design standards, may need to be revisited due to changes in State law. Others, such as development of an Urban Forest Management Plan and a Public Use Telecommunications Systems and Services Plan are dependent on securing funding and/or staff time.

Reprioritized Programs

Based on revised priorities and Council direction, some programs have begun earlier than their original timeframes. These include:

- M-6, Complete Streets Assessment: Developed in conjunction with the Alameda County Transportation Commission
- M-10, Traffic Calming Measures: Addressed by the Neighborhood Traffic Calming Policy, which was adopted in July 2018
- CS-12, Community Emergency Response Reserves Program: Approximately 400
 residents are trained annually through the CERT program, and potentially an
 additional 240 people per year will be trained through a newly launched NERT
 program
- NR-3, Recycled Water Program: Construction of necessary infrastructure began in 2018 with customer connections expected to begin in early 2020
- HQL-6, Climate Change Vulnerability Assessment Strategy and Annual Report: The Local Hazard Mitigation Plan (LHMP) was adopted in 2016, and the Shoreline Master Plan was initiated in 2018

Upcoming Priorities

Looking ahead, the programs listed in Table 2 will be priorities for the City for the remainder of 2019 and in 2020.

Table 2: Program Priorities for 2019 and 2020

Table 2: Program Priorities for 2019 and 2020

Program	Table 2: Program Priorities for 2019 and 2020		
Master Plan first time, includes a Pedestrian Element that will address pedestrian mobility not only in the downtown, but citywide. M-17 City Employee Car/Bike Share Programs The City has been awarded a grant and is in the process of securing a car share firm (Zip Car) to deploy in multiple locations throughout the city. M-23 Transportation Impact Fees The City has begun a Citywide Multi-modal Study that will address the feasibility of developing a dedicated source of funding for transportation improvements. It will look at existing and future infrastructure needs and subsequently develop a Nexus Report. Economic Development ED-6 Industrial Technology and Innovation Corridor Marketing Strategy With the completion of the Industrial Corridor Innovation and Technology Report in 2015, the City of Hayward identified the importance of maintaining and supporting the six major industry clusters that existed in our Industrial area. New regulations that fostered and promoted the growth of these new technology clusters were needed to bring the zoning regulations in line with the needs of the changing market. After the new industrial zoning district regulations are adopted in Spring 2019, Economic Development staff will work to promote the new regulations and the increased development opportunities that will be in effect. The new regulations will help to align zoning standards with the desired uses in the City's targeted industries list. ED-8 Business Incubator Study The CEDC is scheduled to tour a maker space and/or a business incubator during 2019. From there, the committee will make a recommendation on how the City should proceed in the feasibility of establishing such a facility in the City of Hayward. While no formal efforts have begun to create a Town-Gown Economic Strategic Plan, staff has begun the process of creating a marketing plan to further promote the entertainment and dining opportunities of the downtown to the university residents. Table 2: Program Priorities for 2019 and 2020			
Program	Status		
CS-14 Mass	Code-Red was fully implemented late 2014. The Fire Department is		
Communication	actively exploring a potential transition to Everbridge in 2019,		
System Update	which could save the City up to \$60,000.		
Natural Resources			
NR-3 Recycled Water	In May 2018, construction began on the recycled water tank, pump		
Program	station, and approximately eight miles of pipelines. Final design of		
	the recycled water treatment facility was completed in December		
	2018. Customer connections to the recycled water system and		
	deliveries are scheduled to begin in early 2020.		
NR-5 Residential	On September 12, 2016, staff presented a report to the Council		
Energy Performance	Sustainability Committee regarding a potential ordinance that		
Assessment and	would require energy audits of existing buildings and would require		
Disclosure Ordinance	disclosure of energy performance. The Committee directed staff to		
	focus efforts on providing customers with information that would		
	encourage them to voluntarily make energy efficiency updates to		
	existing homes and commercial buildings. Staff is currently working		
	with StopWaste to develop a low-cost multifamily property		
	assessment tool, which may be used for public disclosure of energy		
	performance.		
NR-7 Energy	Hayward participates in the Bay Area Regional Energy Network's		
Reduction Initiative	(BayREN) programs. In 2019, staff plans to promote BayREN's		
and Annual Report	single-family program, which will promote the use of the Home		
	Energy Score. New in 2019 will be an online self-assessment that		
	will encourage users to share their energy data. Also new in 2019		
-	will be a \$150 rebate for a smart thermostat.		
Hazards			
HAZ-3 Seismic Retrofit	Tilt-ups and unreinforced masonry buildings have been retrofitted.		
Program	A Council work session was held in the spring to gain input on the		
	best approach for residential soft story buildings. A draft ordinance		
T	will be presented to Council in June 2019.		
Education and Lifelong Learning			
EDL-4 Education	The library will draft a plan for the annual awards program to		
Awards Program	recognize and honor the achievements of students, local schools,		
	and businesses and community organizations. The focus will be		
	expanded to include education and literacy instead of simply		
	focusing on local schools. Anticipated for completion by the end of		
EDI (Libraria	Fiscal Year 2020.		
EDL-6 Library	The library has budgeted for undertaking a comprehensive strategic		
Strategic Plan and	plan. Anticipated to be undertaken in 2020.		
Annual Report	The City will emberly on planning the cost and coops of a study to		
EDL-8 Library Fee	The City will embark on planning the cost and scope of a study to		
Ordinance	explore the feasibility of Development Impact Fees for library		
	service. Anticipated to be undertaken in 2020.

Program	Status	
Community Health and Quality of Life		
HQL-6 Climate Change Vulnerability Assessment Strategy and Annual Report	Hayward's Local Hazard Mitigation Plan (LHMP) was adopted by Council on November 29, 2016. The LHMP includes vulnerability assessments for fire, flood, and drought. The process of updating the LHMP will begin in 2020.	
	Vulnerability to sea level rise has been documented in numerous reports prepared by the Hayward Area Shoreline Planning Agency and the Adapting to Rising Tides project. The Shoreline Master Plan, expected to be completed in early 2021, will identify strategies for mitigating the impacts associated with sea level rise.	
HQL-8 Park Dedication	The City is working with a consultant and HARD to complete a Park	
Requirements and In-	Nexus Study. Updated park dedication requirements and in-lieu fees	
Lieu Fees	are anticipated for adoption by Summer/Fall 2019.	
Housing		
H-9 Density Bonus	The brochure is anticipated for completion in Summer 2019 to reflect changes from AB 744 and other State requirements, which reduces parking requirements for developments that propose affordable housing in proximity to transit.	
H-19 Exemptions of	As part of the Downtown Specific Plan, the intent is to be sure the	
Transit Priority	CEQA analysis will be able to assist with the streamlining of projects	
Projects from	in the study area which are all within about $\frac{1}{2}$ mile of transit.	
Environmental Review	Estimated completion of the Plan is in 2019.	

NEXT STEPS

Over the coming months, staff will be working to update the status of implementation programs on the Hayward e-plan on the City's website based on information provided in this report.

On an annual basis, Development Services staff will continue to provide an update to the Planning Commission and City Council on General Plan implementation progress.

Over the next few years, staff from various departments will continue to take the lead on the various programs, helping to implement the General Plan's goals and policies.
