SUMMARY

On June 16th, 2020, the Hayward City Council adopted a resolution authorizing the City Manager to negotiate and execute an agreement with Savant Solutions for Information Technology Department Infrastructure Security Services. Since this authorization, the City of Hayward has engaged with Savant Solutions to deliver the desired outcome of serving as a central clearinghouse for cyber-attack log analysis, trend monitoring, as well as augmenting the security defense footprint of the network infrastructure team. Staff recommends extending the annual service contract with this vendor to continue these security services and to expand the scope beyond the baseline security offering the City is currently utilizing.
