## Cover Memo

---

**File #:** RPT 18-096, **Version:** 1

---

**DATE:** May 23, 2018

**TO:** Council Infrastructure Committee

**FROM:** Interim Director of Public Works

**SUBJECT**

Neighborhood Traffic Calming Program Update

**RECOMMENDATION**

That Council reviews and comments on the recommended strategies and policies for the proposed Neighborhood Traffic Calming Program (NTCP).

**SUMMARY**

The proposed NTCP provides a robust and comprehensive approach to address neighborhood traffic safety concerns. By utilizing this comprehensive approach, staff can address the concerns with the most effective and least intrusive solutions first and employ other tactics and tools when appropriate.

In September 2016, prior to the formation of the Council Infrastructure Committee (CIC), the NTCP was discussed before the City Council in a work session. Council was generally in favor of the program. Given the extensive time gap, staff is bringing this item to CIC for the Committee's review and comment before the item is scheduled on the City Council agenda later this year for adoption.
