SUBJECT

Bay Adapt: Regional Strategy For A Rising Bay

RECOMMENDATION

The Technical Advisory Committee (TAC) recommends that the HASPA Board provides input to BCDC on the Bay Adapt Program.

SUMMARY

The San Francisco Bay Conservation and Development Commission (BCDC) will provide an update on the Bay Adapt Program. The purpose of Bay Adapt is to develop and adopt a regional, consensus-driven strategy that lays out the actions necessary to adapt the Bay Area to rising sea levels to protect people and the natural and built environment. BCDC is seeking input on the program and how they can support HASPA's climate adaptation efforts. For more information about Bay Adapt, please visit <https://www.bayadapt.org/>.
