SUMMARY

This project proposes recommended improvements, particularly enhancing bicycle and pedestrian safety, at these two intersections as follows:

2. Install protected-permissive left-turn phase at Huntwood Ave/Sandoval Way
3. Install Hybrid Video Detection for bikes and queue cutters
4. Upgrade Peer-to-Peer Communications

This report requests approval of the plans and specifications and call for bids for the project. Staff was successful in obtaining a Highway Safety Improvement Program (HSIP) grant to fund 90% of the construction cost for the Project. The total Project cost is \$965,000, which includes \$861,000 for construction. The City's required local match of 10% is \$86,100, which combined with the HSIP grant will provide the total construction cost of \$861,000. The remaining amount of \$104,000 in the total project cost is for engineering design services and staff costs, and the total project budget has been previously appropriated through the FY 2022 budget process.
